

Dated: 16th May, 2022

POLICY DECISION

POLICY REGARDING PROVINCIAL MDCAT COMMITTEES

The Medical and Dental Council in its meeting held on 14th May, 2022 has approved the Policy for Provincial MDCAT Committees as follows;

- (1) Prior to 15th June of each year every provincial, federal or any other recognized higher secondary education board upon review of the MDCAT curriculum as formulated and approved by the Board, inform the Authority in writing, with relevant evidence, as to any topic contained in the MDCAT curriculum which is not included in the higher secondary education boards curriculum. Any topic identified shall be omitted from the MDCAT curriculum and necessary amendment shall be made to the MDCAT curriculum upon approval of the Board.
- (2) Every provincial, federal or any other recognized higher secondary education board may submit to the Examination Department of the Authority proposed questions on topics included in the MDCAT curriculum for inclusion in the question bank subject to assessment and review.
- (3) There shall be constituted a Provincial MDCAT Committee in each Province consisting of three members nominated by the Provincial Government of which two shall be from public sector medical universities and one from a private medical university.
- (4) The Provincial MDCAT Committee shall provide supervision of the MDCAT Exam conducted in the Province by the Examination Department of the Authority. The Committee shall;
 - a) Inspect all the exam centers to ensure students are properly facilitated and the exam is conducted properly in accordance with the regulations;
 - b) Liaison with local authorities to ensure necessary assistance is available for security of the center and facilitation of students;
 - c) Receive any complaints by students and ensure redressal by the Examination Department of the Authority; and
 - d) Review with the Examination Department and the panel of experts appointed by the Authority any questions communicated by a student as being incorrect prior to the final post exam analysis.
