

# **Important Announcement**

## **Regarding**

### **“College Fee”**

**(7th Dec, 2020)**

All Private Colleges were directed by PMC to put up on their website the fixed mandatory fee and optional fee to be charged from students seeking admission in the upcoming 2021 Session. The fee to be declared by each college is fixed for the entire 5 years (for MBBS) and 4 years (for BDS) program. No student shall be required to pay more than the declared fee during the program and any demand for any additional fee by any college can be challenged before the Medical Tribunal.

The fixed mandatory fee represents all fees including tuition fees and charges which are to be mandatorily paid by all students. The optional fee represents hostel, mess, transport and insurance charges which are optional for students and payable only if they avail these services.

Some colleges have not yet put up their fee as directed on their websites and some have only put up fee for foreign students but not the Cat B fee for overseas/non-resident Pakistani's who fall under the foreign student category. PMC has issued notices to these colleges to put up the fee in the directed form by 10th December 2020 failing which PMC will put up their submitted fee on its website and the college shall be bound to such fee
