### NOTIFICATION

#### **Admission on Vacant Seats of Public Colleges**

Merit lists issued by the Authority for vacant seats in Public Medical and Dental Colleges represent nominations of students to the respective public colleges having vacant seats as per the PMC record.

The merit list does not represent a final right to admission. Admission is subject to; a) the credentials of the student including their HSSC degree and domicile being verified by the respective College/University, and b) the respective College/University granting admission on payment of fee.

The final right to grant admission in a public college vests with each Public Admitting University or Provincial Authority. If an Admitting University / Provincial Authority does not admit a nominated student, the relevant seat will remain vacant as per the record of the Authority and no student shall be admitted on the vacant seat.

On grant of admission the Admitting University / Provincial Authority is required to confirm the same to the Authority for registering the student.

Any student nominated for a vacant public seat may by 3<sup>rd</sup> March 2022 inform the Authority of declining the nomination, upon which they will be considered for a nomination to a private college as per preferences issued.

A student who has submitted to the Authority along with their application incorrect HSSC marks and if so found by the respective College/University shall have their nomination treated as cancelled.

All placements of nominated students are based on the priority of preferences of public colleges submitted by the student along with their application to the Authority and if none of the preferences are available then to the available college closest to the student's city of residence.

Regular admissions having closed on 10<sup>th</sup> February 2022, all vacant seats in public colleges are therefore, considered as vacant seats in the respective province without reference to the merit as may exist in any particular college at the time of closure of regular admissions. Therefore, no previously admitted student or nominated student has the right to claim placement or change in placement based on the merit of students previously admitted in any particular college.

No student below the lowest closing merit of the respective province has been nominated for a placement for admission hence ensuring no violation of overall merit in public seats of a Province.
