

PRESS RELEASE

PMC Notifies the Conclusion of National Medical and Dental College Admissions

[Islamabad, 14th March 2022] Pursuant to the PMC Medical and Dental Undergraduate Education (Admission, Curriculum and Conduct) Regulations 2021, PMC notifies that national medical and dental college admissions have duly concluded on 10th March 2022 including the period granted under the Vacant Seat Policy of the Commission. No college or student has a right to admit or seek admission subsequent to 10th March 2022.

PMC has forwarded the students admitted by colleges and uploaded to the PMC Portal to the relevant affiliating Universities for verification of their credentials and certifying the admission.

PMC will conclude the review and hearing of all complaints received from students relating to admissions by 30th March 2022. Pursuant to the hearings any admission found contrary to merit and criteria shall be cancelled. Any admission found to have been denied by a college in violation of merit shall be directed for admission. It is clarified that lists assembled by the Authority and forwarded to colleges pursuant to the Vacant Seat Policy did not create a right in favour of any student to admission as these students were only nominated by the Authority with the right to admission vesting exclusively in the colleges subject to applicable rules of merit and transparency.

PRESS RELEASE

All admitted students upon receipt of verification from the respective Universities shall duly receive their PMC Student Registration Number and access to the Student Online Portal.

Seats remaining vacant in each college shall be notified by the Authority on 1st April 2022 whereafter, the Transfer Window as per PMC Medical and Dental Undergraduate Education (Admission, Curriculum and Conduct) Regulations 2021 shall be open for 1st year transfers subject to respective University Rules. The Transfer Window for students in 2nd to 5th Years is already open and applicable since 1st March 2022.
