

PAKISTAN MEDICAL COMMISSION ISLAMABAD

Public Notice Demand of Fee in Advance from Enrolled Students

Dated: 29-12-2022

It has come to the notice of the Authority that some medical and dental colleges are pressing enrolled students to deposit next year's annual fee in advance (before annual professional exams) and penalizing them for not paying the same.

It is clarified that a college may in advance at the end of the session issue a fee challan for the next year's payable fee but no delayed payment charges (fine/penalty) or any other penalty including the right of the student to sit in the professional exam can be imposed on a student prior to declaration of result of the professional exam.

In the event of demand of advance fee in above terms by a college which is being in conflict with the Commission's policy a student may formally lodge complaint with the Commission and the Commission may take serious action against such college under relevant provisions of law. In view of foregoing all private colleges are being advised in their own interest to be strictly compliant with the Commission's Policy.
